

Give Your Retirement Savings a Boost at Ages 60–63!

Thanks to recently passed retirement plan legislation, individuals aged 60 to 63 have an exciting new opportunity to maximize their retirement savings.

What's Changing?

Starting January 1, 2025, individuals turning age 60 to 63 can make annual catch-up contributions to their 401(k) plan totaling the higher of \$10,000 or 150% of that year's regular catch-up amount. According to the Internal Revenue Service, here's how the specific numbers shake out for 2025:

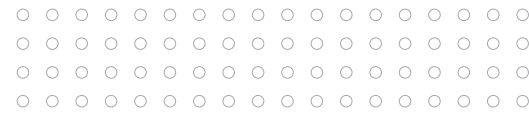

Employee Age in 2025	Standard Annual Deferral Limit for 2025	Catch-up Contribution for 2025	Total Annual Contribution Limit for 2025
50-59	\$23,500	\$7,500	\$31,000
60-63	\$23,500	\$11,250	\$34,750
64+	\$23,500	\$7,500	\$31,000

Specifically, the higher limit is available to a “participant who would attain age 60 but would not attain age 64 before the close of the taxable year.

Why It Matters

This change is designed to help you accelerate your savings during the critical pre-retirement years. In addition, the more you contribute, the more you reduce your taxes. Saving as much as you can during these years can help you build a stronger financial cushion to enjoy retirement your way.

Key Points to Note

- If you turn 60, 61, 62 or 63 at any point during the 2025 tax year and beyond, you can contribute a higher catch-up amount to your 401(k) plan.
- The enhanced catch-up contribution amount will be adjusted annually for inflation starting in subsequent years.

Take Action Today!

Don't miss the chance to make the most of this opportunity to supercharge your retirement savings. For more information, contact your HR department or visit your plan's participant website to adjust your contribution to align with the new catch-up contribution limit.
